

Recharge your Investment with Everun

1. Is your turbine being Serviced & Maintained effectively?

Everun offers a range of competitively-priced O&M packages. Our highly-skilled field engineering teams operate throughout Northern Ireland and have extensive experience across multiple turbine manufacturers and models.

We achieved over 98% Annual Operational Availability for our clients in 2019 and offer bespoke service & engineering packages, including availability guarantees.

2. Is your turbine suitable for Repowering?

Repowering may be a viable way of improving your turbine's performance and extending its life.

However, the process presents certain challenges and requires a thorough assessment.

The Everun Repowering Service has been specifically developed to support clients through the entire process, including initial due diligence through to turbine commissioning and compliance.

3. Do you know how your turbine is performing?

Everun's Asset Management service includes 24/7 Asset Monitoring & Reporting; our Asset Management team can assist with all aspects of the administrative, financial, capital and operation of your turbine, ensuring safe operation whilst driving operational availability and financial returns.

We remove the hassle of managing your turbine and maximise asset performance.

4. Are you considering selling your turbine?

We have a number of high-profile investors actively seeking to purchase turbine assets in Northern Ireland.

Now may be a good time for you to consider this option.

Everun has significant experience managing site acquisition processes and can provide professional advice and support to achieve optimal solutions for all parties.

Established in 2010, Everun is a locally owned company operating and managing over 100+ turbines. We have brought an innovative and adaptable approach to the market, which maximises turbine availability, enhances performance and removes the hassle for owners.

Our range of services include:

- Operating & Maintenance Packages
- Repowering Project Management
- 24/7 Remote Monitoring & Reporting
- Complete Asset Management Services
- Other Professional Services

Using our own bespoke software, we have a dedicated team of professionals proactively monitoring our clients' wind turbines 24 hours a day, 7 days a week.

Should you be interested in exploring any of the scenarios outlined overleaf, please get in touch as soon as possible. We look forward to speaking soon.
